

MIDDLE-SIZE LED BULB

LED Bulb Aluminium Die Casting

Aluminium Die Casting LED Bulb

City Electric

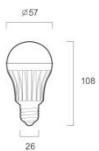

High-end champagne gold aluminium die casting body.

Excellent thermal radiation, hermetically sealed structure completely blocks insects.

- Saves up to 80%** More energy
- Long Life** Has longer life compared to three-wave length lamps
- No Hg/Co** Eco-friendly | Mercury-free | Lead-free

It is an LED bulb with an outer ring aluminium die casting body and a high-end champagne gold finish. It has excellent thermal radiation property and blocks insects completely through perfectly sealed body. The D-type bulb is the best product for replacing existing three-wave bulbs. You just need to replace the bulbs in the existing lighting fixtures at your front door, porch, bathroom, and living room. We promise you agreeable changes such as electric cost savings of up to 80% or more, long product life, brighter lighting and others.

MIDDLE-SIZE LED BULB

LED Bulb_PC

PCLED Bulb

City E.L.G

Slack and smooth exterior.

Features an easy classification for cool white and warm white color.

The PC bulb has a smart exterior similar to that of a CFL bulb. Moreover, it is affordable. It has a remarkable thermal radiation property by using a vase-shaped double-layered glass frames and a metal PCB. The PC LED bulb is suitable for replacing an existing bulb with an energy-saving bulb. You just need to replace the bulbs in the existing lighting fixtures at your front door, porch, bathroom, and living room. We promise you agreeable charges such as electric cost savings of up to 85% or more, long product life, brighter lighting and others.

- Energy saving up to 80% (compared to incandescent)
- Long Life (up to 50,000 hours)
- No Hg Co.

Antique Lamp Filament **65W**

Antique lamp **Original**

The Antique Lamp Filament is a reproduction like the filament light bulb from 100 years ago. It gives off the delicate feeling and atmosphere that a filament light bulb emits. It has a glass tube coated in brown with evaporation, which gives it a retro style. Furthermore, it has high power consumption and the same life span as a general light bulb. It releases heat through its filament, and there is a risk of burn when the bulb is broken.

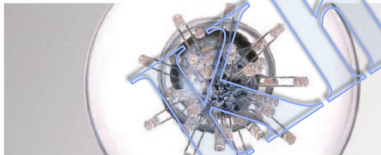

LED Antique Lamp COB **5W**

Antique lamp **Mockingjay**

The <cityO> Antique Lamp COB is a reproduction like the filament light bulb, albeit with an LED light bulb. When light is switched on, it is very similar to a filament light bulb. Between the two is hard to distinguish from each other. The Antique Lamp COB was designed to be long enough to be a replica of the filament light bulb, and glass tube is coated in brown with evaporation, which gives it an antique and soft style. It has low power consumption and low maintenance costs as it is an LED light bulb and has a long life span.

LED Antique Lamp Snowflake **2W**

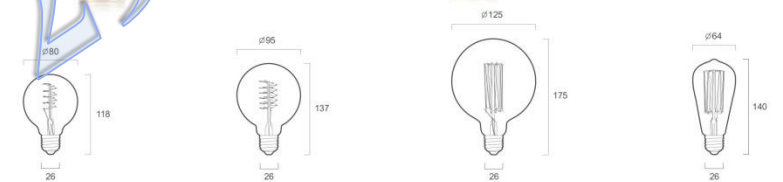

Antique lamp **Unique**

The <cityO> Antique Lamp Snowflake features the strengths of LED chip point lighting. Three layers of LED chip corrugated glass are placed into a glass bulb and hand-rolled one by one. It is highly preferred by customers due to outstanding decorative use and gorgeous style. It has low power consumption and low maintenance costs as it is an LED light bulb and has a long life span.

HIGH-WATTAGE LED BULB

LEDHigh_WattagaBulb

LED High-Wattage Bulb

City Electric

Features an efficient 8-tube and 12-tube screw base design with a shortened lamp length. Excellent thermal radiation by using radiating aluminum fins and safety hooks to prevent drop accidents for each tube, secure and completely sealed.

The LED High-Wattage Lamp is designed with an eight-tube screw base to shorten the length of the lamp. It is constructed with radiating aluminum by each tube to separate radiating fins. It is a fully sealed structure with excellent thermal radiation property, and it blocks insects completely. It can be used conveniently by adding a customized PC glass and a preventive safety hook for drop accidents. The City LED High-Wattage Lamp is the best product for replacing an existing three-pin bulb with an energy-saving bulb. We promise you agreeable changes such as electric cost savings of up to 80% or more, long product life, brighter lighting and others.
